Skills

- HTML, CSS, JS, C++ ,Python
- OOP, SQL, Git and Github.

Experience

Skill Development Coordinator

Skill Development Society

9/2023 - 10/2024

CUI Sahiwal

- My role is to managing volunteers, trainers, and participants to ensure smooth execution.
- Tracking progress, collecting feedback, and improving future programs

Projects

Url:Projects Repositories Link

Tic Tac Toe Game(C++)

- Built a console game using OOP principles with modular functions for board logic, input validation, and win-condition checks, achieving 100% accurate gameplay.

Seats Reservation System(C++)

- Developed a file-based booking system with flight options, enabling ticket generation and data persistence.
- Added input checks to prevent errors and make booking easier.

Personal Portfolio(FrontEnd)

- Create a responsive personal portfolio website featuring an introduction, project showcase with live links, contact form using HTML, CSS, and JavaScript.
- Designed a streamlined layout to showcase key accomplishments, ensuring smooth navigation for a better user experience.

Weather App(API integration)

- Implimented a Weather App that fetches real-time data via OpenWeatherMap API, with geolocation detection and Celsius/Fahrenheit conversion.

Enhanced API integration skills by handling user permissions and error notifications for denied location access.

Car Maintenance App(Flutter+ObjectBox)

Built a cross-platform car maintenance tracker using Flutter & ObjectBox, implementing CRUD operations, 1-to-Many relationships, and responsive UI with state management.

Education

Bachelors of Science

- Major in Computer Science

COMSATS University Islamabad

Sahiwal, PK

09/2022 - 6/2026

Certificates
